android application development a pdf

The Android Developer Challenge was a competition to find the most innovative application for Android. Google offered prizes totaling 10 million US dollars, distributed between ADC I and ADC II. ADC I accepted submissions from January 2 to April 14, 2008.

Android software development - Wikipedia

Android Package (APK) is the package file format used by the Android operating system for distribution and installation of mobile apps and middleware.. APK files are analogous to other software packages such as APPX in Microsoft Windows or a Debian package in Debian-based operating system. To make an APK file, a program for Android is first compiled, and then all of its part are packaged into ...

Customer experience for mobile is more important to your business than you might think. Before we dive into the nitty gritty world of Hybrid vs Native Mobile Apps, there's one aspect of mobile that you should be aware of.

Hybrid vs Native Mobile Apps – The Answer is Clear

Yes, you can. You can just copy everything from Rainlendar's program folder to the USB memory and create an empty text file called rainlendar2.ini in the same folder where the executable is. This will make Rainlendar2 store the settings and all the events and tasks to its program folder so the data will be on the USB memory too.
