The Guide contains information about the many academic programs that make the University of Wisconsin–Madison one of the world's foremost institutions of higher education.. The Guide is published online only. It is not available in printed format. The information in the Guide applies to all undergraduate students at the university regardless of their classification (school/college affiliation).

Undergraduate Guide < University of Wisconsin-Madison

Eutrophication (from Greek eutrophos, "well-nourished"), or hypertrophication, is when a body of water becomes overly enriched with minerals and nutrients which induce excessive growth of plants and algae. This process may result in oxygen depletion of the water body. One example is an "algal bloom" or great increase of phytoplankton in a water body as a response to increased levels of nutrients.

Eutrophication - Wikipedia
