So What Is Positive Education? Positive education is the combination of traditional education with the study of happiness and well being, using Seligman's PERMA model and Values in Action (VIA) classification. Seligman has been working on incorporating positive psychology into education to decrease depression in younger people and enhance well being and happiness.

What is Positive Education and How To Apply It? (+PDF)

Positive psychology is "the scientific study of what makes life most worth living", or "the scientific study of positive human functioning and flourishing on multiple levels that include the biological, personal, relational, institutional, cultural, and global dimensions of life". Positive psychology is concerned with eudaimonia, "the good life", reflection about what holds the greatest value ...

Energy Psychology with David Feinstein Ph. D. | Easily

Freud believed that life was built round tension and pleasure. Freud also believed that all tension was due to the build-up of libido (sexual energy) and that all pleasure came from its discharge.. In describing human personality development as psychosexual Freud meant to convey that what develops is the way in which sexual energy accumulates and is discharged as we mature biologically.
