structures of social action pdf

In the social sciences, social structure is the patterned social arrangements in society that are both emergent from and determinant of the actions of the individuals. On the macro scale, social structure is the system of socioeconomic stratification (most notably the class structure), social institutions, or, other patterned relations between large social groups.

In sociology, social action, also known as Weberian social action, refers to an act which takes into account the actions and reactions of individuals (or 'agents'). According to Max Weber, "an Action is 'social' if the acting individual takes account of the behavior of others and is thereby oriented in its course".
