With 4- to 22-station scalability, the ESP-Me helps you better manage your yard and garden. The more stations you add, the more you save. Best of all, you can upgrade existing ESP-Me installations by simply installing a new WiFi-compatible front panel and LNK™ WiFi Module, without having to replace the entire unit.

Babbling is a stage in child development and a state in language acquisition during which an infant appears to be experimenting with uttering articulate sounds, but does not yet produce any recognizable words. Babbling begins shortly after birth and progresses through several stages as the infant's repertoire of sounds expands and vocalizations become more speech-like.
